

**Pengzhou No. 2 Sewage Treatment Plant (彭州第二污水處理廠)
of Beijing Enterprises Water Group
Convening Phase I Stage I Project Completion and Handover
Inspection Meeting**

(Hong Kong, 20 April 2011), in the afternoon of 23 March 2011, Pengzhou Company of Beijing Enterprises Water Group organized the relevant divisions in geological exploration, design, construction and supervision and management to convene a completion and handover inspection meeting for the completion and handover inspection of Phase I Stage I Project of Pengzhou No.2 Sewage Treatment Plant. Vice mayors, Mr. Jiao Feng and Mr. Fu Chao and other leaders had attended the meeting, and leaders from relevant authorities like Water Service Bureau, Environmental Protection Bureau, Finance Bureau, Quality Supervision and Inspection Station of Pengzhou City and Xingpeng Company were also invited.

The completion and handover inspection meeting conducted a checking on the unit project entity quality according to the construction project completion and handover inspection procedures, and reviewed the quality evaluation report prepared by the supervision and management unit. The

five responsible entities had unanimously agreed to accept the handover inspection and the representatives of Quality Supervision and Inspection Station read out its opinions in respect of the project quality supervision.

At the meeting, Vice Mayor Jiao Feng and Vice Mayor Fu Chao fully commended the works of Pengzhou Company and hoped that Pengzhou Company could effectively manage and control the water pollution in Pengzhou City, making its due contribution to create a new Pengzhou City with

“blue sky, green land, clear water and harmonious people”. At the same time, the two leaders also hoped the Construction Bureau, Water Service Bureau, Xingpeng Company and other units would co-ordinate well, so that Pengzhou Company could complete the project construction of ancillary pipeline network as soon as possible.

The completion of Phase I Stage I Project of Pengzhou No. 2 Sewage Treatment Plant further intensified the good relationship between Beijing Enterprises Water Group and Pengzhou Municipal Government. It also enlarged the social influence of Beijing Enterprises Water Group in Pengzhou City, and had laid a good foundation for realizing the predictable and reasonable investment returns for the group.
